

OX BODIES®

"As Strong As An Ox"

VERTEX

Extruded Aluminum Dump Truck Body

Engineered for performance, the Vertex® aluminum dump body delivers unmatched strength without the weight. Designed for end users who demand more payload per haul, Vertex® helps maximize profitability with every load.

Lighter Weight = More Payload = More Profit

Robust Construction built to handle tough jobs

Dual-Wall Extrusions for superior dent resistance and durability

Whether you're hauling aggregates, sand, or asphalt, Vertex® is the smart choice for operators who want to do more with less.

MORE PAYLOAD, MORE PROFIT

Vertex®'s lightweight aluminum body lets you haul more material per trip and have lower empty weight, boosting revenue and reducing fuel costs.

ENGINEERED FOR STRENGTH, BUILT FOR THE FIELD

Vertex® features patented SST-shaped crossmembers that deliver superior floor support and durability, without added weight.

DUAL-WALL STRENGTH, DENT-RESISTANT

Patented horizontal dual-wall extrusions with inner stiffeners offer unmatched durability and a polished look that hides wear and tear.
